## Work Experience

---

### SENIOR SOFTWARE DEVELOPER Zeus Learning Pvt. Ltd., Mumbai, Maharashtra [July 2020 - Present] (5 Months)

I've recently been promoted to the Senior Software Developer position, which has added more responsibilities to my role in the company. I've been training and supervising newly joined software developers. I've been involved in structural design and implementation of a new project which involves low level design of a system, constructing class diagrams and overall implementation of the project from the ground up.

### SOFTWARE DEVELOPER Zeus Learning Pvt. Ltd., Mumbai, Maharashtra [July 2018 - June 2020] (2 Years)

Working as a Software Developer here helped me boost my technical skills and learn application level development, teamwork and project management. I've worked on various projects involving a wide variety of tech stacks, mainly focused on front end technologies and web based software simulations. I've also developed some internal tools using Python, to help other members of my team.

### TRAINEE Softvan Pvt. Ltd., Ahmedabad, Gujarat [June 2017 - April 2018] (11 Months)

As a trainee in this company in the period of my final year at engineering college, I developed an intelligent Amazon Alexa skill, with Java at backend, using AWS services like AWS S3 & AWS Lambda. This project's main purpose was to solve queries of bank customers on various types of loans offered by the respective bank. I also developed a supporting dashboard website using the Java Spring framework, which can be used to enter information about various types of loans and also to manage users who have queried through the system.

## Technical Skills

---

**JavaScript:** Angular 7+, NodeJS, ReactJS, TypeScript, Backbone.js, jQuery, AJAX  
**Web:** HTML5, CSS3  
**DevOps:** Docker  
**DBMS:** Mysql, MongoDB  
**Java:** Core, Spring, Hibernate, Android(beginner)  
**Python:** Python 3.x, Natural Language Processing(beginner),  
**API Testing:** Postman  
**Tools:** VS Code, Visual Studio, PuTTY, Git  
**OS:** Windows, Linux(moderate)

## Education

---

**B.E. (CE) - L. J. Institute of Engineering and Technology**  
**GTU - Ahmedabad, Gujarat (2014-2018)**  
CPI: 9.23 | CGPA: 9.54

**12<sup>TH</sup> GRADE (SCIENCE) Sahjanand School of Achievers**  
**GSEB - Gandhinagar, Gujarat (2013-2014)**  
Percentage: 82.61 | Percentile Rank: 97.19

**10<sup>TH</sup> GRADE Shree M. D. Shah High School**  
**GSEB - Botad, Gujarat (2011-2012)**  
Percentage: 86 | Percentile Rank: 96.73

## Projects

---

### MEDICAL TERMINOLOGY

Angular 10 | Zeus Learning

This is a simulation solution focused mainly on students of the medical field. As its name suggests this project teaches different ways of learning terminology used in the medical world. I was involved in the design process of the project and have built the core structure of the project.

### ACCOUNTING SIMULATION

Backbone.js, jQuery | Zeus Learning

It is an eLearning solution for students to learn different concepts of accounting like Sales, Sales Reports, Inventory Management, Payroll Management, Tax Reports etc.

### MICROSOFT OFFICE SIMULATION - KEPLER

Javascript, Script# | Zeus Learning

This was my first project with Zeus Learning. It is a fully web based simulation of the whole suite of Microsoft office apps, like MS Word, MS Excel, MS Powerpoint etc. It's a task driven eLearning solution for teaching some basic and advanced functionalities of various MS Office apps.

### SCRATCHPAD

Javascript, Script#, .NET Core | Zeus Learning

This is a web based simulation of Microsoft Excel which helps bank employees to learn essential skills related to spreadsheets. It is task driven eLearning software. I've mainly been involved with the frontend activities along while also working on some backend related tasks.

## FINANCIAL INTELLIGENCE

### J2EE with Artificial Intelligence, MySql

This was my final year project. We used an Amazon Alexa device to solve the queries of bank customers specifically about bank loans. Customers can walk upto the Alexa powered device and start interacting with voice commands and ask their queries and the intelligent device would answer their queries. We also developed a web portal to add and manage the data about bank loans which will be used by our Alexa skill. To support this project we used various AWS services like AWS S3, AWS Lambda & AWS SDK for Java. We used the Java Spring framework for the web portal.

## SETU - ONLINE DONATION

### PHP, Javascript, MySql

This was my first attempt at web development back in college. It is an online donation site which helps local small scale NGOs and old age homes to raise funds. NGOs were able to sign up for the service, post their requirements and receive donations, which could range from money to other essentials like clothes, books, etc., directly from donors.

## Events/Activities/Accomplishments

---

### MOOC COURSES/CERTIFICATIONS

**M001: MongoDB Basics**, MongoDB University

**M103: Basic Cluster Administration**, MongoDB University

**M121: The MongoDB Aggregation Framework**, MongoDB University

**Complete Angular Developer Bootcamp**, LearnCodeOnline

**Full Stack MERN Bootcamp**, LearnCodeOnline

**Data Science Math Skills**, Duke University

**Machine Learning**, Stanford University

**Algorithms, Part 1**, Princeton University

**Modern Natural Language Processing in Python**, Udemy

**Python for Statistical Analysis**, Udemy

**The Complete Android Developer Course**, Udemy

### OFFICE EVENTS - PARTICIPATION

**Zeus Premier League**, Zeus, 2019

**Zeus Football Tournament**, Zeus, 2018

**Zeus Singing Competition**, Zeus, 2019

### HACKATHONS/EVENTS

**LJ Innovation Village**, LJ Group of Institutes, 2018

**Smart India Hackathon (Team Leader)**, GirlsScript Foundation, 2017

**Hackathon**, GirlScript India Summit, 2017

**CodeVita Season V(Round 1)**, TCS, 2016

### OTHER ACTIVITIES

**1706<sup>th</sup> Snow Trekking Manali**, Invincible NGO, 2020

**Blood Donation**, Ahmedabad Red Cross Society

### WORKSHOPS

**L100 Xamarin mobile development training**, 2017

**Basics of .NET**, LJIT, 2016

**Database Designing**, LJIT, 2016

**AJAX in .NET**, LJIT, 2017
